UNIKWORK

Surat, Gujarat, India

- Contributed to the **UNIKWORK Dashboard**, a production-level project management, task tracking, and business workflow platform, working closely with senior frontend and backend developers in an agile environment.
- Developed and enhanced production-ready **React.js** and **Next.js** components following reusable, scalable architecture; integrated REST APIs for projects, clients, employees, assets, tasks, and authentication modules.
- Built dynamic task management features including board view, list view, task details, and advanced filtering, sorting, and pagination.
- Fixed responsive design issues across devices, debugged API integrations, and optimized application performance.

Amazon ML Summer School 2025

August 2025

Selected Participant

- Selected among top candidates for Amazon's prestigious Machine Learning Summer School 2025, demonstrating strong technical aptitude and commitment to advancing ML expertise.

Projects

FinChatBot - AI Financial Document Analysis | *MERN, FastAPI, FAISS* | 🐙

December 2025

- Built an AI-powered financial document analysis platform using RAG, FAISS, and Groq API for natural language querying of PDF, Excel, and CSV documents.
- Implemented secure authentication, real-time chat, document embeddings, and AI-generated financial summaries and insights.

Smart Expense Tracker | *MERN, Tailwind CSS, Chart.js, JWT* | 🐙🐙

February 2026

- Developed a full-stack personal finance platform with expense tracking, budgeting, analytics dashboards, and secure JWT authentication.
- Integrated AI finance assistant, OCR receipt scanning, spending insights, savings goals, and interactive data visualizations.

Vastra - Clothing E-Commerce Store | *MERN, Razorpay, Firebase* | 🐙🐙

May 2025

- Built a full-stack e-commerce platform with product catalog, shopping cart, order management, and admin dashboard.
- Integrated Razorpay payments, Firebase authentication, Cloudinary image uploads, and deployed using Vercel.
